RAM SUDHARSAN S

Front-End Developer (React)

Personal Statement

As a **Front-End Web Developer** with over 2+ years of experience, I specialize in crafting responsive, user-centric web applications using HTML, CSS, JavaScript, and React. My goal is to build seamless and intuitive interfaces that drive user engagement and enhance performance. With a solid foundation in front-end frameworks, modern design principles, and cross-browser compatibility, I consistently deliver clean, maintainable, and scalable code. I thrive in collaborative environments and am eager to join a dynamic team where I can continue to grow, contribute to impactful projects, and transform creative ideas into high-performing digital experiences.

Professional Summary

- **UI Development:** Front-end developer with 2+ years of experience creating responsive, accessible, and visually appealing web interfaces using HTML5, CSS3, and JavaScript.
- **React Development:** Proficient in building scalable, component-based user interfaces using **React 18**, with experience in **React Router**, **Redux**, and custom hooks to manage routing, state, and application logic.
- **AI Tools & Prompting:** Experienced with GitHub Copilot, using effective prompt engineering for faster coding, debugging, and documentation.
- **Tooling & Accessibility:** Hands-on with Git, Azure DevOps, and debugging tools, with a solid grasp of responsive layouts and web accessibility standards.
- **Clean & Scalable Code:** Skilled in writing modular, maintainable code with strong attention to UX, performance, and cross-browser compatibility.
- **Frameworks & Integration:** Proficient in front-end libraries like React and modern JavaScript techniques.
- **Team Collaboration:** Works effectively with designers and back-end developers to ensure smooth development cycles and timely delivery.

Skill Cluster

HTML5 | CSS3 | LESS | SASS/SCSS | Tailwind CSS | Bootstrap | Web Accessibility | Cross-Browser Compatibility | Hugo (SSO) | JavaScript(ES6+) | React 18 | Redux | React Router | Node.js | Azure DevOps (Boards, Pipelines) | CI/CD | Git | NPM | Agile/Scrum | Test-Driven Development (TDD)

Education

Bachelor of Engineering in Electronics and Communication Engineering (ECE) – 7.52
Kamaraj College of Engineering and Technology – 2022

Certification

- Web Development Foundation: HTML5, CSS3, Bootstrap (Udemy).
- Front-end Web Development (Besant Technologies)

Work Experience

- ✓ **Hubstream India Pvt. Ltd.** – *Aug 2023 – Present* | Software Development Engineer
  - **Led a cross-functional squad**, managing end-to-end feature delivery while collaborating closely with product managers, designers, to ensure smooth execution of project goals.
  - Designed scalable and maintainable front-end architecture for core product features, aligning technical solutions with both business objectives and user experience standards.
  - Conducted detailed code reviews, provided constructive feedback, and mentored junior developers to enhance code quality, maintainability, and team performance.
  - Actively participated in brainstorming sessions and design discussions, contributing ideas and technical insights to help shape intuitive and user-friendly UI solutions.
  - Utilized **AI-assisted** tools (such as code generators and documentation assistants) to accelerate development, resolve issues faster, and increase overall productivity.
  - Validating functionality through manual and automated test case execution, and investigated failures in **UAT** to ensure quality and stability before release.

- ✓ **Hubstream India Pvt. Ltd.** – *May 2023 – Jul 2023* | Software Development Engineer Trainee

- ✓ **Hubstream India Pvt. Ltd.** – *Feb 2023 – Apr 2023* | Intern

Carrier Achievements

- ▪ **Star Award** – *OCT 2023*
- ▪ **CTO Recognition Award** – *APR 2024*

Declaration

I hereby declare that the information mentioned above is correct and complete to the best of my knowledge.
